FDA clearance pending

**See us at
ASA Booth Number 1218-1220**

Clarus Video System is all in one.

Blending the benefits of the optical stylets with video technology. It combines a malleable stylet with a four-inch liquid crystal display and light emitting diodes. An optional flexible scope can detach for a convenient E.T. Tube Exchange.

Coming soon! Disposable Video Laryngoscope Blade and Disposable Single Use Sheath allows you to keep the scope with you.
