ESRA Diploma
Exam Part II Open to Diploma
09:00-16:30 Applicants Only

07.09.2011				1												1		1	
	Hall A	Time	Hall B	Time	Hall C	Time	Hall D	Time	Hall E	Hall E	Time	Hall F	Hall F	Time	Hall H	Time	Hall I	Time	Offsite
09:00-09:40					Acute & Chronic Pain Refresher Course 01 - Which is the best analgesic solution for labour analgesia?		Regional Anaesthesia Refresher Course 02 - Musculoskeletal Pain: Basic Central Mechanisms												
09:45-10:25					Acute & Chronic Pain Refresher Course 03 - Role of ultrasonography in pain therapy		Regional Anaesthesia Refresher Course 04 - Why Are Manuscripts Rejected By Journals?												
10:30-11:10					Acute & Chronic Pain Refresher Course 05 - Low Back Pain: Assessment and Management		Regional Anaesthesia Refresher Course 06 - Integrating mechanism of neuromodulation with mechanism of pain												
11:15-11:55					Acute & Chronic Pain Refresher Course 07 - Non anesthetic effects of local anesthetics		Regional Anaesthesia Refresher Course 08 - Bariatric surgical techniques and its implications under RA												
12:00-12:40					Regional Anaesthesia Refresher Course 09 - Optimal thoracic epidural analgesia		Regional Anaesthesia Refresher Course 10 - Can we predict which patients will suffer from pain after operation?												
12:45-13:25					Regional Anaesthesia Refresher Course 11 - Adjunct drugs for central and peripheral nerve blocks in Pediatric patient		Regional Anaesthesia Refresher Course 12 - Safety of epidural anaesthesia												
13:30-14:10					Regional Anaesthesia Refresher Course 13 - Nerve damage after RA: incidence, diagnosis and management		Regional Anaesthesia Refresher Course 14- Management of acute pain in acute tolerant patient												
14:15-14:55					Regional Anaesthesia Refresher Course 15 - Future directions for regional anesthesia in fast-track surgery		Acute & Chronic Pain Refresher Course 16 - Regional anaesthesia and organ protection												
15:00-15:40		15:00 - 17:00			Regional Anaesthesia Refresher Course 17 - Role of ultrasonography in neuraxial and truncal techniques		Acute & Chronic Pain Refresher Course 18 - What does it take to get started US-guided nerve blocks												
15:45-16:25			ESRA DIPLOMA EXAM - PART 1 - Open to Diploma Applicants Only		Regional Anaesthesia Refresher Course 19 - Peripheral blocks and anticoagulation		Acute & Chronic Pain Refresher Course 20 - Role of ultrasonography in lower limb blocks												
16:30-17:10	0				Regional Anaesthesia Refresher Course 21 - Preeclampsia revisited		Acute & Chronic Pain Refresher Course 22 - Current knowledge of Complex Regional Pain Syndrome												
17:15 - 18:15 18:15	Opening Ceremony Welcome Reception																		
10:15	reception				l .				l	1	1	1	1		l .	1	l .		1
