Texas Anest Texas Annual

FRIDAY

at the
Hilton Houston Post Oak Hotel, Houston, Texas
TACO

Activity Director: Maya S. Suresh, MD
Activity Co-Directors: Quisqueya T. Palacios, MD
Ashutosh Wali, MD, FFARCSI

TAPAS
Co-Directors: Dean B. Andropoulos, MD, MHCM
David A. Young, MD FAAP
Olutoyin Olutoye, MD, FAAP

Activity Coordinators: Ellen Seaback, CMP, CAE, CCMEP
Annette Brieno

NEEDS AND TARGET AUDIENCE

Based on its review of participant activity evaluations from the 2008 conference, as well as recent articles in the medical literature, and also recent Pediatric Anesthesiology regional and national meetings, the planning committee has identified the need in anesthesiologists and CRNA's for:

- Discussion on the use of new devices and techniques for regional analgesia in labor
- Discussion of new thought and innovations in post operative analgesia in obstetrics
- Discussion of development of chronic pain following cesarean section and ways to avoid development of plasticity and chronic pain
- Discussion of ethical dilemmas and anesthetic challenges in hemorrhagic parturients in Jehovah Witness patients and the use of cell saver
- Applying evidence-based medicine to everyday practice of obstetric anesthesia
- Discussion of lessons learned from real world obstetric cases
- Discussion of ASA Closed Claims Analysis – Medicolegal issues and lessons learned from these cases
- Discussion of post-operative pain management and new regional anesthesia techniques in pediatrics
- Discussion of out of operating room anesthesia for pediatric patients
- Discussion of malignant hyperthermia in pediatrics
- Discussion of anesthesia for the ex-premature infant
- Discussion of common post-anesthesia care issues in pediatrics

The goals of this conference are to make the participant aware of the evolving practices in obstetric anesthesia, and to address the introduction of new devices and techniques for labor analgesia, selected aspects of postpartum care, i.e., use of new long-acting epidural opioid and prevention of chronic pain resulting in social and medical issues. The conference will also highlight the hotly debated "pay for performance" topics such as intraoperative control of temperature, glucose homeostasis and the use of "pencil point" spinal needles. The conference will also highlight medical issues in obstetrics such as management of "Pres Syndrome," difficult airway, anaphylaxis and substance abuse in pregnancy, and to discuss maternal mortality, resuscitation and ethical issues such as informed consent, patient safety, quality improvement and professional liability in obstetric anesthesia. This conference will also include separate topics in pediatric anesthesiology, to make the participant aware of new developments in pediatric pain management, regional anesthesia, and sedation techniques for diagnostic and therapeutic procedures outside the operating room. There will be ample opportunity to interact with expert pediatric anesthesiologists during panel discussions, and during a special "Ask the Experts" panel on pediatric anesthesia.

EDUCATIONAL METHODS AND OBJECTIVES

Through the use of lectures, presentations, panel discussions, and a syllabus, the participants should be able to explain and discuss:

- Evolving practice of using combined-spinal epidural in all laboring patients
- Awareness of increasing incidence of obesity resulting in new design of operating rooms
- Regulatory issues: JCAHO requirements to prevent neuraxial infection, maintenance of normothermia and glucose homeostasis in all patients
- Lessons learned from quality assurance, real patient complications
- New thoughts and new techniques to manage hemorrhage
- Lessons learned from obstetric anesthesia malpractice claims
- Analysis of maternal mortality and new thoughts on maternal resuscitation
- Real world issues in obstetric anesthesia with practical solutions
- Evolving practice of sedation and anesthesia for out-of-operating room procedures in pediatrics
- New techniques for pain relief and regional anesthesia in pediatrics
- Current anesthetic approaches to the pediatric patient with an upper respiratory infection
- Update on malignant hyperthermia incidence and management in pediatrics
- Common post anesthesia care problems in pediatrics
- Current issues in pediatric anesthesia

ACCREDITATION/CREDIT DESIGNATION

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 21.5 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The presentation, *Jehovah's Witness and Use of Cell Saver in Obstetric Hemorrhage*, has been designated by Baylor College of Medicine for .25 credits of education in medical ethics and/or professional responsibility.

The presentation, *Informed Consent, Documentation and Medicolegal Issues*, has been designated by Baylor College of Medicine for .50 credits of education in medical ethics and/or professional responsibility.

Approved by the American Association of Nurse Anesthetists for 21 credits: Code number 31295; Expiration date: March 8, 2009.

EVALUATION

Evaluation by questionnaire will address program content, presentation, and possible bias.

**TEXAS ANESTHESIA CONFERENCE FOR
OBSTETRICS & TEXAS ANNUAL PEDIATRIC
ANESTHESIA SYMPOSIUM 2009 PROGRAM**

FRIDAY, MARCH 6, 2009

6:00 Registration and Buffet Breakfast

6:50 **Introduction and Welcome**

Maya S. Suresh, MD

Interim Chairman

Professor of Anesthesiology and

Obstetrics and Gynecology

Division Chief of Obstetric and Gynecology Anesthesiology

Baylor College of Medicine

Dean B. Andropoulos, MD, MHCM

Chief of Anesthesiology

Professor of Anesthesiology and Pediatrics

Baylor College of Medicine

Anesthesia Conference for Obstetrics and Pediatric Anesthesia Symposium

– SUNDAY, MARCH 6-8, 2009

EVOLVING PRACTICES IN OBSTETRIC ANESTHESIA

- 7:05 **New Devices and Techniques for Regional Analgesia for Labor**
M. Joanne Douglas, MD, FRCPC
- 7:35 **New Thoughts on Combined-Spinal Epidural (CSE): Can CSE Be Used For All Laboring Patients?**
Peter Pan, MSEE, MD
- 8:05 **Neuraxial Infection: JCAHO Requirements – Risks and Preventions**
Brenda A. Bucklin, MD
- 8:40 **Innovations in OR Management to Deal with Morbid Obesity**
Robert D'Angelo, MD
- 9:10 Break

NEW THOUGHTS AND INNOVATIONS: POSTOPERATIVE ANALGESIA IN OBSTETRICS AND PEDIATRICS

- 9:20 **Pain Translation, Transmission, Modulations and Development of Chronic Pain Development**
Oscar A. deLeon Casasola, MD
- 10:00 **Can DepoDur Be Used Safely in Obstetrics?**
Chawla LaToya Mason, MD
- 10:20 **Postoperative Pain Management in Pediatrics (TAPAS)**
Santhanam Suresh, MD
- 10:40 **Bureaucracy or Essential? Monitoring of SaO₂/ETCO₂ in All Parturients Receiving Neuraxial Morphine**
Robert D'Angelo, MD
- 11:10 **Panel Discussion**
- 11:30 Break

ANALGESIA OLD AND NEW: EVIDENCE-BASED MEDICINE IN OBSTETRICS AND PEDIATRICS

- 11:45 **Alternative Techniques For Labor Analgesia PCA: Remifentanyl, Sevoflurane, etc.**
William R. Camann, MD
- 12:05 **Pain After Delivery: From Predictors to Oxytocin**
Peter Pan, MSEE, MD
- 12:25 **New Approaches to Regional Anesthesia Techniques in Pediatrics (TAPAS)**
Santhanam Suresh, MD
- 12:45 **Panel Discussion**
- 13:00 Lunch (on your own)

COMMONLY ENCOUNTERED PROBLEMS IN PEDIATRIC ANESTHESIA

- 14:15 **Off-Site Anesthetic Management For the Pediatric Patient (TAPAS)**
Laura Torres, MD
- 14:45 **Runny Nose: Is It An Issue for Anesthetic Management? (TAPAS)**
David A. Young, MD
- 15:05 **Panel: Ask the Experts Your Burning Questions Regarding Pediatric Anesthesia (TAPAS)**
Stephen A. Stayer, MD, Emad B. Mossad, MD, MBBS, Nancy Glass, MD, MBA, Mehernoor F. Watcha, MD, David A. Young, MD, Laura Torres, MD
- 15:35 Break

REAL WORLD: CURRENT PRACTICES AND CONTROVERSIES IN OBSTETRIC ANESTHESIA

- 15:45 **From Literature to Daily Practice: Is Your Epidural Optimized?**
Peter Pan, MSEE, MD

- 16:10 **Current Controversies in Obstetric Anesthesia**
William R. Camann, MD
- 16:30 **Panel Discussion**
- 17:00 Adjourn

SATURDAY, MARCH 7, 2009

- 6:30 Registration/Continental Breakfast

LESSONS LEARNED: QUALITY ASSURANCE JEOPARDY

- 7:00 **Status Post Delivery: Hypertension, Aphasia and Confusion – What is PRES?**
Uma Munnur, MD
- 7:30 **Anesthetic Management For Malignant Hyperthermia: What Are the Current Therapies? (TAPAS)**
Tae W. Kim, MD
- 8:00 **Test Dose To High Spinal to CSF Exchange: What is Dural Puncture?**
Peter Pan, MSEE, MD
- 8:30 **Panel Discussion**
- 8:50 Break

HEMOSTASIS, BLEEDING, AND COAGULATION: ETHICS AND ADVANCES IN MANAGEMENT OF OBSTETRIC HEMORRHAGE – PRACTICAL SUGGESTIONS

- 9:10 **New Thoughts on Hemostasis**
Jose M. Rivers, MD
- 9:40 **Pharmacological and Factor VII Administration Management During Obstetric Hemorrhage**
Ashutosh Wali, MD, FFARCSI
- 10:00 **Role of Interventional Radiology in Maternal Hemorrhage**
William R. Camann, MD
- 10:20 **The Obstetrician's Perspective in Maternal Hemorrhage**
Christina M. Davidson, MD
- 10:50 **The Anticoagulated Parturient: Are ASRA Guidelines Applicable in Parturients on LMWH?**
Alice L. Oswald, MD
- 11:10 **Jehovah's Witness and Cell Saver in Obstetric Hemorrhage**
Connie K. Tran, MD
- 11:30 **Panel Discussion**
- 12:00 Lunch

Hosted Luncheon: ASA Closed Claims Analysis in Obstetrics: Lessons Learned

Keynote Speaker: Karen B. Domino, MD, MPH

- 12:40 **Introduction of Speaker**
- 12:45 **Presentation**
- 13:30 **Questions and Answers**

MEDICAL ISSUES & TIPS AND TOOLS/ REGIONAL ANESTHESIA IN OBSTETRICS

- 13:45 **Tips to Troubleshoot and Improve Epidural Analgesia in Labor**
M. Joanne Douglas, MD, FRCPC
- 14:15 **Ouch! My Aching Back Pain and the Parturient**
Brenda A. Bucklin, MD
- 14:45 **Local Anesthetic Toxicity – Past and Present – Evidence Based Treatment**
Ashutosh Wali, MD, FFARCSI
- 15:10 Break

PAY FOR PERFORMANCE (P₄P) TOPICS

- 15:30 **Maternal Hypothermia & Shivering During Caesarean Section: Is P₄P Applicable?**
Chawla LaToya Mason, MD
- 16:00 **Glucose Homeostasis Intrapartum – Anesthetic Management**
Ashutosh Wali, MD, FFARCSI
- 16:30 **Pencil Point Needles: Prevention of Post-Dural Puncture Headache and Treatment: P₄P Issue**
Erik W. Felton, MD
- 17:00 **Panel Discussion**
- 17:30 Adjourn

SUNDAY, MARCH 8, 2009

- 7:30 Continental Breakfast

CHALLENGING ISSUES IN PEDIATRIC ANESTHESIA

- 8:00 **Anesthesia For the Ex-Premie Graduate (TAPAS)**
Olutoyin Olutoye, MD, FAAP
- 8:30 **Common PACU Problems in the Pediatric Patient (TAPAS)**
Imelda M. Tjia, MD

ETHICS AND CHALLENGES IN OBSTETRICS

- 9:00 **The Changing Face of Maternal Mortality: Implications for the Anesthesiologist**
M. Joanne Douglas, MD, FRCPC
- 9:30 **Old, New, and Future Devices for Management of Difficulty/Failed Intubation in Obstetrics**
Maya S. Suresh, MD
- 10:00 **Informed Consent, Documentation, and Medicolegal Issues**
Shobana Chandrasekhar, MD
- 10:30 Break

CHALLENGES, ETHICAL ISSUES, AND RESUSCITATION IN OBSTETRIC PATIENTS

- 10:45 **Anaphylactic Reactions During Obstetric Anesthesia Management**
Rakesh B. Vadhera, MD
- 11:15 **Substance Abuse in Pregnancy – Anesthetic Challenges**
Jose M. Rivers, MD
- 11:45 **Patient Safety, Quality Improvement and Professional Liability in Obstetric Anesthesia**
Quisqueya T. Palacios, MD
- 12:05 **Resuscitation in the Pregnant Patient**
Donovan Earley, CRNA, MS
- 12:25 **Panel Discussion**
- 12:45 Adjourn

DIFFICULT AIRWAY WORKSHOP (TACO · 2009)

Activity Director: Maya S. Suresh, MD
Activity Co-Directors: Uma Munnur, MD
Connie K. Tran, MD
Chawla LaToya Mason, MD

NEEDS AND TARGET AUDIENCE

The planning committee reviewed comments from previous workshop participants which indicate the value of the workshop. The committee also reviewed recent regional and national scientific and educational meeting content, and pediatric anesthesia published medical literature, to determine the need for increased education and hands-on training in the pediatric difficult airway.

One source of data demonstrating the need for improved performance in the management of the difficult airway (DA) is the American Society of Anesthesiologists (ASA) Closed Claims Project database, a standardized collection of case summaries derived from professional liability insurance companies closed claims files. The analyzed data published in summary articles provide a unique tool not only for reducing malpractice liability exposure for the anesthesia practitioner, but also for improving patient safety and health outcomes. Pediatric anesthesia patients are also included in this database. Emerging data also shows adverse outcomes following extubation of difficult airways, which is another area of focus for future improvement in patient safety.

In recent decades, video techniques have been employed in the majority of intubations because of several distinct advantages provided. The anatomy is magnified, recognition of the anatomical structures and abnormalities comes earlier, and manipulation of airway devices is facilitated. When assistance is required, the operator and assistant can coordinate their movements because each sees exactly the same image on the video monitor. As a result, video techniques have become the method of choice in teaching. This is another area in which we are trying to focus on improvement in patient safety.

Given the significant potential adverse outcomes, this workshop will provide DA management training, as well as provide a refresher course for the anesthesia practitioner. National experts in airway management of both adult and pediatric patients will be presenting practical updates in small interactive groups regarding use of proven and new airway devices in the management of difficult and failed airway.

EDUCATIONAL METHODS AND OBJECTIVES

Through the use of lectures, presentations, a syllabus, and hands-on workshop sessions, the participant should be able to explain and discuss:

- Use of various educational tools, simulator, and methodology used in teaching advanced airway management and maintaining competency in various airway management skills
- Use of proven and new supraglottic devices, fiberoptic scope, and video laryngoscopes in managing difficult airway
- Quality assurance analysis of adverse cardiac and neurological outcomes following failed intubation
- Airway laser surgery in pediatrics
- Advanced airway techniques in pediatrics, including fiberoptic intubation, supraglottic airways, and other devices specifically for pediatric patients

ACCREDITATION/CREDIT DESIGNATION

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 9.75 *AMA PRA Category 1 Credit(s)*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

Approved by the American Association of Nurse Anesthetists for 9 credits: Code number 31294; Expiration date: March 5, 2009.

Difficult Airway Workshop

THURSDAY, MARCH 5, 2009

DIFFICULT AIRWAY WORKSHOP 2009 PROGRAM

THURSDAY, MARCH 5, 2009

6:30 Registration and Continental Breakfast

7:00 **Welcome and Introduction**
Maya S. Suresh, MD

SESSION I

FUTURE OF VIDEO LARYNGOSCOPES: WILL IT REPLACE TRADITIONAL LARYNGOSCOPY?

7:05 **Cormack & Lehane Laryngeal Exposure Classification. Role of Video Laryngoscope in the ASA Difficult Airway Algorithm**
Richard M. Cooper, MD

7:30 **Glide Scope**
Richard M. Cooper, MD

7:50 **McGrath Portable and Storz Video Laryngoscopes**
Carin A. Hagberg, MD

8:10 **AirTraQ Laryngoscope**
Ashutosh Wali, MD, FFARCSI

SESSION II

LIGHTED OPTICAL STYLETS

8:25 **Lightwands**
Connie K. Tran, MD

8:45 **Levitan, Shikani and Foley Stylets**
Alonso Mesa, MD

9:00 Break

SESSION III

AIRWAY CHALLENGES IN PEDIATRICS & ADULTS

9:10 **Airway Laser Surgery in Pediatrics (TAPAS)**
David G. Mann, MD

9:40 **Difficult and Invasive Airway Management in Pediatrics (TAPAS)**
Usha Ramadhyani, MD

10:10 **Sedation With Remifentanyl and Dexmedetomidine For Awake Intubation**
Carin A. Hagberg, MD

10:30 **Pearls of Awake Fiberoptic Intubation: Lessons From the Master**
Andranik Ovassapian, MD

10:50 **Fiberoptic Intubation is the Gold Standard: Pros & Cons**
Carin A. Hagberg, MD

11:05 Break

11:15 **"Hands on" Workshop Morning Session**

Moderators: Maya S. Suresh, MD, Uma Munnur, MD, Connie K. Tran, MD, Chawla LaToya Mason, MD
Registrants will be divided into Groups A and B with specific station assignments.

Workshops I – XXIII will be repeated in the afternoon session

I. Preparation of the Airway
Eschman Stylet

II. Airway Scope

III. Blind Nasal Intubation

IV. Glide Scope

V. COBRA PLA

VI. Flipper Laryngoscope
Optical Scope

Easy Tube

VII. Seeing Optical Stylet
Shikani Stylet

VIII. Combitube

IX. Light Wand, TrachLights

X. Levitan

XI. Cook ILA, Air Q

XII. WuScope

XIII. Laryngeal Mask Airways

XIV. LMA/Fiberscope

XV. Fiberoptic Intubation

Tracheobronchial Tree

XVI. McGrath Video Laryngoscope

XVII. Double Lumen Tubes

Bronchoscope

XVIII. Jet Ventilation

XIX. Laryngeal Tube

XX. Airman Simulator

XXI. Cricothyroidotomy Mannekin

Retrograde Wire

XXII. Pig Trachs

Cricothyroidotomy

XXIII. Pediatric Bronchoscope, LMAs, Glidescope, Lightwand (TAPAS)

13:00 Lunch (provided)

SESSION IV

SUPRAGLOTTIC AIRWAY DEVICES

13:45 **ProSeal and Positive Pressure Ventilation**
David Ferson, MD

14:15 **Role of C-Trach in Airway Management**
Andranik Ovassapian, MD

14:45 **Supreme LMA and Its Present and Future Role in Airway Management**
Chandy Verghese, MD

15:05 **Laryngeal Tube**
Adrian Matioc, MD

15:20 **Cricothyroidotomy**
Dave N. Nanan, MD

15:40 **Airway Related Neurological Complications. Lessons From QI.**
Radha Arunkumar, MD

16:00 Break

16:10 **"Hands on" Workshop Afternoon Session**

Groups A and B will reverse assignments for the afternoon session
Moderators: Maya S. Suresh, MD, Uma Munnur, MD, Connie K. Tran, MD, Chawla LaToya Mason, MD

18:00 Adjourn

The Difficult Airway Workshop does not meet the AMA requirements for designating new procedures and skills training for credit.

In order to meet the requirements of the Accreditation Council for Continuing Medical Education it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of a CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests. All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, and objectively presented. Specific disclosure will be made to the participants prior to the educational activity.

Faculty, topics, program schedule, and credit are subject to change.

Audio or videotaping is prohibited without written permission from the Activity Director and the Office of Continuing Medical Education, Baylor College of Medicine, Houston, Texas.

You must register for TACO Conference and Difficult Airway Workshop **separately:**

For TACO Conference www.BaylorCME.org/CME/1416M

For Workshop www.BaylorCME.org/CME/1416W

GUEST FACULTY

Radha Arunkumar MD

Assistant Professor of Anesthesiology and Pain Medicine
M. D. Anderson Cancer Center
Houston, Texas

William Camann, MD

Director of Obstetric Anesthesia
Brigham & Women's Hospital
Associate Professor of Anesthesia
Harvard Medical School
Boston, Massachusetts

Richard M. Cooper, BSc, MSc, MD, FRCPC

Professor, University of Toronto
Director of Anesthesia Equipment
Clinical Sponsor, Anesthesia Information Management Project
Toronto General Hospital
Toronto, Ontario, Canada

Robert D'Angelo, MD

Vice Chair and Section Head for Obstetric Anesthesia
Wake Forest University School of Medicine
Winston-Salem, North Carolina

Oscar A. de Leon-Casasola, MD

Professor and Vice-Chair for Clinical Affairs
Department of Anesthesiology, University at Buffalo
Chief, Pain Medicine and Professor of Oncology
Roswell Park Cancer Institute
Buffalo, New York

CONFERENCE LOCATION AND ACCOMMODATIONS

The Hilton Houston Post Oak Hotel

2001 Post Oak Boulevard
Houston, Texas 77056-4401
Phone: 713.961.9300
Fax: 713.623.6685

Make your hotel reservation by February 4, 2009 to benefit from the reduced rate of \$145.00 single/double (plus applicable state and local occupancy taxes). Please indicate that you are attending the **Baylor College of Medicine TACO/TAPAS Conference**. A limited number of rooms have been reserved at the conference rate. PLEASE BOOK EARLY.

FEE, REGISTRATION & CONFIRMATION INFORMATION

Refer to the registration form for the fee schedule. Your registration will not be processed until payment is received. Your registration will be confirmed. If you have not received confirmation

at least 5 business days before the activity start date, contact the Office of Continuing Medical Education (OCME) immediately.

If you plan to register on-site, contact OCME at least 24 hours in advance to confirm activity status and space availability. The OCME reserves the right to limit the number of participants in an activity and will not be responsible for any expenses incurred by an individual whose registration is not confirmed and for whom space is not available.

CANCELLATION/ REFUND POLICY

Requests for registration refunds must be in writing and received by the Office of Continuing Medical Education (OCME) at least 10 business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a \$50 administrative fee deducted from the registration

fee paid to cover guarantees and other expenses. Requests should be mailed to the OCME or faxed to 713.798.7955. The OCME reserves the right to cancel activities, not less than 10 business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form followed by written notification. If an activity is cancelled, OCME's liability is limited to the registration fee paid. Note: If payment is made by check, a social security number is required to process the refund.
