

TACO 2011

*Texas Anesthesia
Conference for Obstetrics
March 4-6*

CONCURRENT WORKSHOPS

Difficult Airway Workshop

Thursday, March 3, 2011 | 6:30 a.m. - 6:15 p.m.

Ultrasound-Guided Workshop

Thursday, March 3, 2011 | 7:00 a.m. - 12:15 p.m.

Hilton Houston Post Oak

2001 Post Oak Boulevard | Houston, Texas 77056

Sponsored by Baylor College of Medicine

Presented by Department of Anesthesiology

BCM
Baylor College of Medicine

TACO 2011

Difficult Airway Workshop

Activity Directors Maya S. Suresh, MD, and Ashutosh Wali, MD, FFARCSI
Activity Co-Directors Uma Munnur, MD
Activity Managers David Madrigal, MHA, CCMEP and Annette Brieno

Needs and Target Audience

Department of Anesthesiology, Baylor College of Medicine developed the Difficult Airway Workshop to educate, highlight, and teach various concepts and new devices in difficult airway management.

The planning committee reviewed comments and surveys from previous workshop participants who indicated the value of the workshop. The committee also reviewed recent national scientific evidence and peer-reviewed articles to determine the need for increased education and hands-on training in the management of pediatric and adult difficult airways.

Sources demonstrating the need for improved performance in the management of the difficult airway (DA) include the American Society of Anesthesiologists (ASA), Obstetric Anesthesia Closed Claims Project Database, and standardized collection of case summaries from professional liability insurance companies closed claims files. National and international anesthesiologists, and emergency medicine physician experts in airway management will provide practical tips and updates during the course and in the interactive group sessions at the workshop.

Anesthesiologists, Certified Registered Nurse Anesthetists (CRNAs), emergency medicine physicians, and other allied health professionals assisting with airway management should attend.

Educational Methods and Objectives

Through the use of lectures, case presentations, panel discussion, a syllabus and hands-on workshop sessions, the participant should be able to:

- Describe factors that predispose patients to difficult intubation and/or ventilation.
- Discuss preoperative assessment methods to identify patients difficult to intubate.
- Discuss the use of airway devices in the various steps of the ASA Difficult Airway Algorithm in appropriate clinical situations.
- Discuss the new airway devices and methods to help manage difficult airways.
- Describe and discuss the features, advantages, limitations, and applications of new supraglottic ventilatory devices available for difficult airway management.

Evaluation

Evaluation by questionnaire will address program content, presentation, and possible bias.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 5.50 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The 'hands-on' sessions of this activity are **not** designated and/or eligible for CME credit.

THURSDAY, MARCH 3, 2011

6:30 AM **Registration and Continental Breakfast**

7:00 **Welcome and Introduction**

Maya S. Suresh, MD

Chairman Department of Anesthesiology

Professor of Anesthesiology and Obstetrics and Gynecology

Division Chief of Obstetrics and Gynecology Anesthesiology

ASA Algorithm, Preoxygenation, and Difficult Laryngoscopy

Moderator: Ashutosh Wali, MD, FFARCSI

7:05 **Pre-operative Assessment and Prediction of Difficult Airway**

Alice Oswald, MD

7:30 **ASA Difficult Airway Algorithm Preview and Review**

Maya S. Suresh, MD

7:55 **Difficult Laryngoscopy: Role of Videolaryngoscope**

Carin A. Hagberg, MD

8:15 Break

Difficult Mask Ventilation and Extubation Strategies

Moderator: Maya S. Suresh, MD

8:25 **Strategies for Optimizing Preoxygenation**

Chris Christodoulou, MD

8:50 **Difficult Mask Ventilation**

Carin A. Hagberg, MD

9:15 **Laryngeal Mask Airway: Special Considerations**

Chandy Verghese, MD

9:40 **Extubation and Airway Exchange Catheters**

Thomas C. Mort, MD

10:05 Break

“HANDS-ON” WORKSHOP: MORNING SESSION*

Moderators: Ashutosh Wali, MD, FFARCSI, Maya S. Suresh, MD, and Uma Munnur, MD

- Preparation of the Airway
- Eschmann Stylet
- Flexible Scopes
 - Adult and Pediatric
 - Double Lumen Tube
 - Bronchial Blockers
- Optical Stylets
 - Levitan Scope
 - Shikani Stylet
 - Video Intubation Scope
- Videolaryngoscopes
 - GlideScope
 - McGrath Video Laryngoscope
 - C-MAC
 - Air Traq
 - Pentax
 - King Vision
- Supraglottic Airways
 - Laryngeal Mask Airway
 - Air Q
 - I-Gel
- Combitube and Easy Tube
- King LT/LTS
- Jet Ventilation
- Retrograde Wire Intubation
- Pig Trachs/Mannekin
- Cricothyroidotomy

11:50 Lunch (provided)

New Devices in Airway Management

Moderator: Uma Munnur, MD

1:00 **New Gadgets in Airway Management**

Ashutosh Wali, MD, FFARCSI

1:25 **Cricothyroidotomy**

Dave Nanan, MD

1:50 Break

Unique Challenges: Emergency Room, Pediatrics, Invasive Airway Access, and Airway Registry

Moderator: Ashutosh Wali, MD, FFARCSI

2:05 **Pre-hospital and Emergency Room: Special Considerations**

Richard V. Aghababian, MD

2:35 **The Pediatric Airway: Special Considerations**

Laura Torres, MD

3:00 **The Traumatized Airway: Management**

Sally Raty, MD

3:25 **Follow-up of the Difficult Airway Patient: Difficult Airway Registry**

Lorraine Foley, MD

3:50 **Panel Discussion**

4:15 Break

4:30 “HANDS-ON” WORKSHOP: AFTERNOON SESSION*

(Groups A & B will reverse assignments from morning session)

6:00 Evaluation

6:15 Adjourn

*The 'hands-on' sessions of this activity are **not** designated and/or eligible for CME credit.

TACO 2011 Ultrasound-Guided Workshop

Activity Director Maya S. Suresh, MD
Activity Co-Directors Connie K. Tran, MD, and Jaime Ortiz, MD
Activity Managers David Madrigal, MHA, CCMEP and Annette Brieno

Needs and Target Audience

Department of Anesthesiology, Baylor College of Medicine developed the Ultrasound-Guided Workshop to educate, highlight and teach various concepts of ultrasound guidance placement of neuraxial blocks and central venous lines.

The planning committee reviewed the current survey to indicate the value of the workshop. The committee also reviewed recent national scientific evidence and peer-reviewed articles to determine the need for increased education and hands-on training in ultrasound-guided techniques.

Sources demonstrated the need for improved performance in enhancing the success rate of regional blocks and central line placement and to reduce the risks of complications. Experts in ultrasound-guided techniques will provide practical tips and updates during the workshop and in the interactive group sessions at the workshop.

Anesthesiologists, Certified Registered Nurse Anesthetists (CRNAs), and other allied health professionals should attend.

Educational Methods and Objectives

Through the use of lectures, presentations, a syllabus, and hands-on workshop sessions, the participant should be able to:

- Describe the use of ultrasound to identify epidural and spinal anatomy.
- Describe the application of ultrasound-guided techniques in regional anesthesia.
- Describe the use of ultrasound as a tool for the placement of central line, peripheral intravascular and arterial lines.

Evaluation

Evaluation by questionnaire will address program content, presentation, and possible bias.

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 3.0 *AMA PRA Category 1 Credits*[™]. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The 'hands-on' session of this activity is **not** designated and/or eligible for CME credit.

THURSDAY, MARCH 3, 2011

7:00 AM Registration and Continental Breakfast

7:20 **Welcome and Introduction**

Maya S. Suresh, MD and Connie K. Tran, MD

Review of Ultrasound and Clinical Applications of Ultrasound-Guided Techniques

Moderator: Connie K. Tran, MD and Jaime Ortiz, MD

7:40 **Ultrasound Principles: Physics and Basic Applications of Ultrasound**

Jaime Ortiz, MD

8:15 **The Use of Ultrasound in Neuraxial Placement**

Manuel Vallejo, MD

8:45 **Transversus Abdominis Plane (TAP) Block versus Epidural Block for Postoperative Pain Control after Cesarean Section**

Neil Bailard, MD

9:15 **Ultrasound-Guided Vascular Access**

Raja Palvadi, MD

9:45 **Update on Local Anesthetic Toxicity**

Connie K. Tran, MD

10:15 Break

10:30 "HANDS-ON" WORKSHOP SESSION*

Moderators: Connie K. Tran, MD, Jaime Ortiz, MD, Raja Palvadi, MD, Manuel Vallejo, MD and Neil Bailard, MD

Basics of Ultrasound: Ultrasound-Guided Needle Visualization

Gel Model, Tofu Model

Practical Applications (Human Model)

Ultrasound-Assisted Neuraxial Techniques (Spinal, Epidural)

Ultrasound-Guided Transversus Abdominis Plane (TAP) Block

Thoraco-Abdominal Block (Human Model)

Paravertebral Block

Ultrasound-Guided Vascular Access

Central Line Placement, Arterial Line Placement, Peripheral Line Placement

12:00 Evaluation

12:15 Adjourn

*The 'hands-on' session of this activity is **not** designated and/or eligible for CME credit.

Texas Anesthesia Conference for Obstetrics

Activity Director Maya S. Suresh, MD
Activity Co-Director Quisqueya T. Palacios, MD
Activity Managers David Madrigal, MHA, CCMEP and Annette Brieno

Needs and Target Audience

Department of Anesthesiology, Baylor College of Medicine developed the Texas Anesthesia Conference in Obstetrics (TACO) 2011 based on the 2010 TACO Conference evaluations and surveys of previous participants, the 2009 and 2010 In-Training Examinations and MOCA Keywords. The content was also based on national society and scientific meetings and peer-reviewed publications.

The conference will highlight the relevancy of the Practice Guidelines in Obstetric Anesthesia, tips to optimize epidural labor analgesia, the use of ultrasound in labor epidural placement and achieving competency.

The conference will also focus on the “growing epidemic” of obesity and practical tips from 2009–2010 literature. The conference will also address recent issues affecting the provision of anesthesia in light of shortages of key anesthetic agents, and the changing views of vaginal birth after Cesarean Section and JCAHO alert on maternal mortality. The conference will provide new ideas on crisis management and Rapid Response teams in management of critical situations in obstetrics, an update on Closed Claims in obstetrics, and disclosure of adverse events and preparing for Trial and Deposition.

Anesthesiologists and Certified Registered Nurse Anesthetists (CRNAs) should attend.

Educational Methods and Objectives

Through the use of lectures, case presentations, panel discussions, and question and answer sessions, the participant should be able to:

- Describe the role of ultrasound for spine demarcation before placement of neuraxial blocks.
- Explain the American Society of Anesthesiologists updated practice guidelines for the prevention, detection, and management of respiratory depression associated with neuraxial opioid administration.
- Employ lessons learned from the ASA Closed Claims Database Project regarding obstetric anesthesia mishaps to improve patient safety and decrease provider malpractice.
- Describe and discuss the determinants and factors associated with failed intubation and management strategies in obstetric patients.
- Explain the American Society of Anesthesiologists obstetric anesthesia practice guidelines regarding fasting regimens in pregnant women factoring in the individual patient and other research studies.

Evaluation

Evaluation by questionnaire will address program content, presentation, and possible bias.

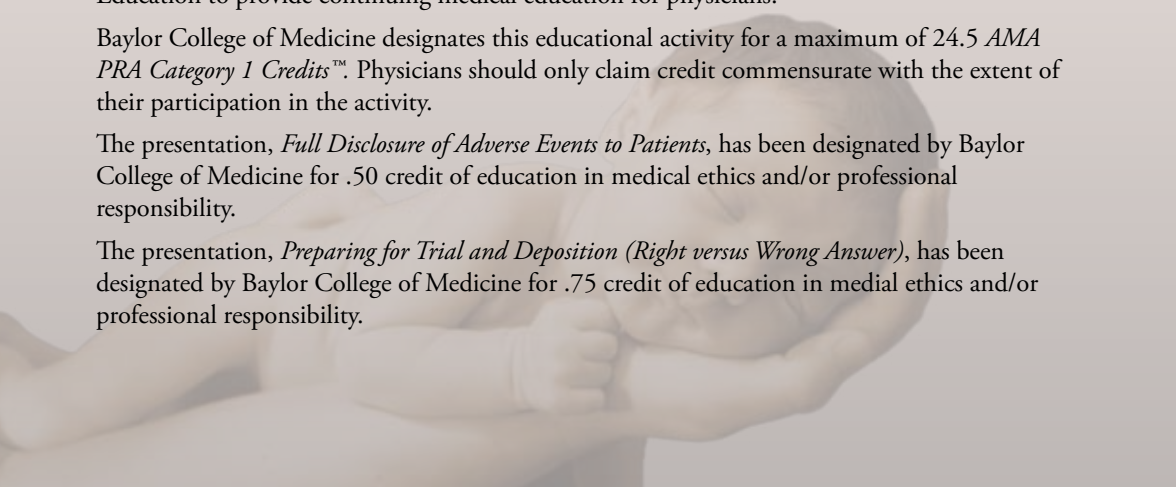

Accreditation/Credit Designation

Baylor College of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Baylor College of Medicine designates this educational activity for a maximum of 24.5 *AMA PRA Category 1 Credits*™. Physicians should only claim credit commensurate with the extent of their participation in the activity.

The presentation, *Full Disclosure of Adverse Events to Patients*, has been designated by Baylor College of Medicine for .50 credit of education in medical ethics and/or professional responsibility.

The presentation, *Preparing for Trial and Deposition (Right versus Wrong Answer)*, has been designated by Baylor College of Medicine for .75 credit of education in medical ethics and/or professional responsibility.

FRIDAY, MARCH 4, 2011

6:00 AM **Registration and Continental Breakfast**

6:55 **Welcome and Introduction**

Maya S. Suresh, MD

Fee, Registration and Confirmation Information

Refer to the registration form for the fee schedule. Your registration will not be processed until payment is received. Your registration will be confirmed. If you have not received confirmation at least five business days before the activity start date, contact the OCME immediately.

If you plan to register on-site, contact OCME at least 24 hours in advance to confirm activity status and space availability. The OCME reserves the right to limit the number of participants in an activity and will not be responsible for any expenses incurred by an individual whose registration is not confirmed and for whom space is not available.

To register/pay online visit the activity websites and follow instructions. You must register for workshops and/or conference separately.

Difficult Airway Workshop: BaylorCME.org/CME/1449W1

Ultrasound-Guided Workshop: BaylorCME.org/CME/1449W2

TACO Conference: BaylorCME.org/CME/1449M

Conference Location and Accommodations

Hilton Houston Post Oak

2001 Post Oak Blvd.

Houston, TX 77056

Accommodations should be arranged directly with the Hilton Houston Post Oak by calling 713.961.9300 or going online to: http://www.hilton.com/en/hi/groups/personalized/I/IAHWSHH-BTC-20110227/index.jhtml?WT.mc_id=POG. Please identify yourself with the *Baylor College of Medicine Texas Anesthesia Obstetrics Conference* when making reservations in order to benefit from the special group rate (\$152 single/double). A limited number of rooms have been reserved at the special rate on a space available basis. *The deadline to receive the special rate is February 9, 2011, unless the room block has already been filled.* RESERVE YOUR ROOM EARLY.

Disclosure

In order to meet the requirements of the Accreditation Council for Continuing Medical Education it is the policy of Baylor College of Medicine that all individuals who are in a position to control the content of a CME activity (activity director, planning committee members, and faculty) disclose relevant financial relationships with commercial interests.

All identified conflicts of interest are managed to help ensure that the educational material is scientifically based, accurate, and objectively presented. Specific disclosure will be made to the participants prior to the educational activity.

Cancellation/Refund Policy

Requests for registration refunds must be in writing and received by the Office of Continuing Medical Education (OCME) at least 10 business days before the activity begins. The date the request is received by the OCME will be considered the cancellation date. Requests received after the refund deadline will not be processed. Cancellations are subject to a \$50 administrative fee deducted from the registration fee paid to cover guarantees and other expenses. Requests should be mailed to the OCME or faxed to 713.798.7955.

The OCME reserves the right to cancel activities, not less than 10 business days before the scheduled date, if extenuating circumstances make it necessary. Registrants will be notified at the contact number indicated on the registration form followed by written notification. If an activity is cancelled, OCME's liability is limited to the registration fee paid. Note: If payment is made by check, a social security number is required to process the refund.

TACO 2011 Registration Form

Please use the following registration form to provide your personal information, regardless of the conference and/or workshop(s) you are attending.

Name: _____
Affiliation: _____
Address: _____
City: _____ State: _____ Zip: _____
Phone: _____ Fax: _____
E-mail: _____
Specialty: _____ Prof. Lic. (No./State): _____
Emergency Contact Name/Phone: _____

Please register for any and all conferences below, that you wish to attend:

Neither the *Difficult Airway Workshop* nor the *Ultrasound-Guided Workshop* meet the AMA requirements for designating new procedures and skills training for credit. You must register for the *TACO Conference*, *Difficult Airway Workshop*, and *Ultrasound-Guided Workshop* separately:

Difficult Airway Workshop: BaylorCME.org/CME/1449W1
Ultrasound-Guided Workshop: BaylorCME.org/CME/1449W2
