PROMOTING BODIES

The pursuit of institutional aims is guaranteed by the University's promoting bodies: Campus Bio-Medico Association and Campus Bio-Medico Spa.

Campus Bio-Medico Association (a non-profit agency founded by Ministerial Decree on 28 September 1992) supports studies and research in the biomedical area. It collects donations from private bodies and companies to support the University activities and contribute to study grants.

Campus Bio-Medico Spa, founded in 1991 and based in Milan, has promoted the hospital planning and construction work. It is the owner of the land upon which the university campus stands. Its shareholders are institutional and private investors, including foundations and companies.
